THE FESTIVUS

A publication of the San Diego Shell Club

COMPREHENSIVE INDEX TO THE FESTIVUS 1970-2005

Compiled by

Jules Hertz & Carole M. Hertz

Vol. I, No. 1 through Vol. XXXVII, No. 11

Publication date: January 19, 2006

This index is a compilation of the papers and articles which have appeared monthly in *The Festivus* since its inception in 1970 as well as supplements and occasional papers. The index is arranged both by author and by key words.

The author index is arranged alphabetically by author's last name; each entry including (in chronological order) year, title, volume, issue, pages and number of figures. The key word index is also alphabetical; each key word followed by entries organized in alphabetical order by author's last name, volume and issue. Under classes Gastropoda, Bivalvia, Cephalopoda, and Polyplacophora, the data are listed alphabetically by family. To facilitate indexing, the subclass Opisthobranchia is treated as an entity separate from the Gastropoda.
